

Scholarship Support Project in the Imlil Region. Morocco

In the summer of 2008 we signed an agreement with the Regional Academy of Education and Training of Marrakech-Tenseft-Al Haouz Region whereby Record Currency Management Limited via Amigo Adventures in association with the Department of International Relations of the Agency, agreed to fund the school supplies and books for the six grades of the schools of Tachedirt, Tanguist and Ouanaskro located in the region of Imlil. The process would be done by direct transfer of funds to the supplier of books, and these would be delivered to all children one by one. The whole process would be under the supervision of a delegate of the Regional Agency, the Regional Director of the school and me.

Record Currency Management Limited has been the most loyal and constant client AA has had since its inception. They discovered the true reality of this region and its people on a bespoke trip organized by AA for them. At that time we trek the paths of Tanguist and Ouanaskro and had time to chat with the people and hear their problems and difficulties. Moved by its constant desire for cooperation, Record decided to push this project through AA, which we appreciate deeply.

This support took shape in late September with the delivery of such material at a ceremony held in Ouanaskra with the presence of most of the parents, representatives of Regional Agencies, local representatives (Caid), the director and all teachers. The books were delivered individually to each child in a moving ceremony that aims to be the beginning of a project to improve the living conditions of the area, providing financial support to families in all matters relating to the education of their sons or daughters. Last two years and following a Royal decision (Mohamed VI), the books have been provided by the Regional Academy for free, so Amigo Adventures with Record Currency Management Limited has begun to explore other possible ways to support education in the area . We are in

the process of establishing a new agreement to provide all students with an appropriate uniform for the living conditions of the region.

We invite everyone to join this project and of course, to visit Morocco and the region of Imlil at the foot of the Toubkal National Park, where you can enjoy the hospitality of the Berber people and see first-hand where we invest our hopes.

Project Details

2008-2009 School term

Locations: **Tachedirt, Ouanaskro, Tanguist. Imlil. Region of Marrakech-Tensift-Al Haouz**

Number of students benefited: **242**
